

✨ SACRED SYMBOLS ✨

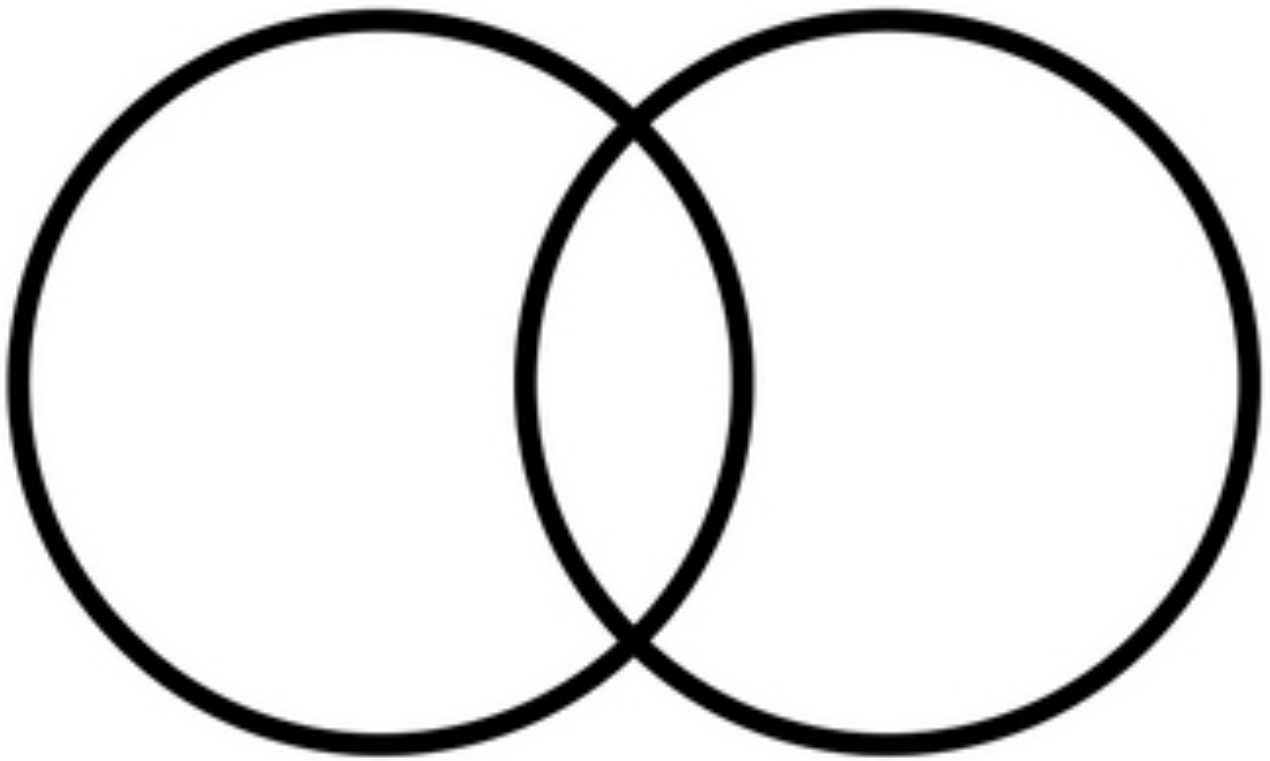

Mystic Math: Sacred Shapes & Symbols

Five ancient designs **below** await your **insight** and **creativity**. Use **color**, **lines**, and **notes** to make them **yours**. Use an extra piece of paper for notes **if needed**. The names have been given, but **what would name each symbol?**

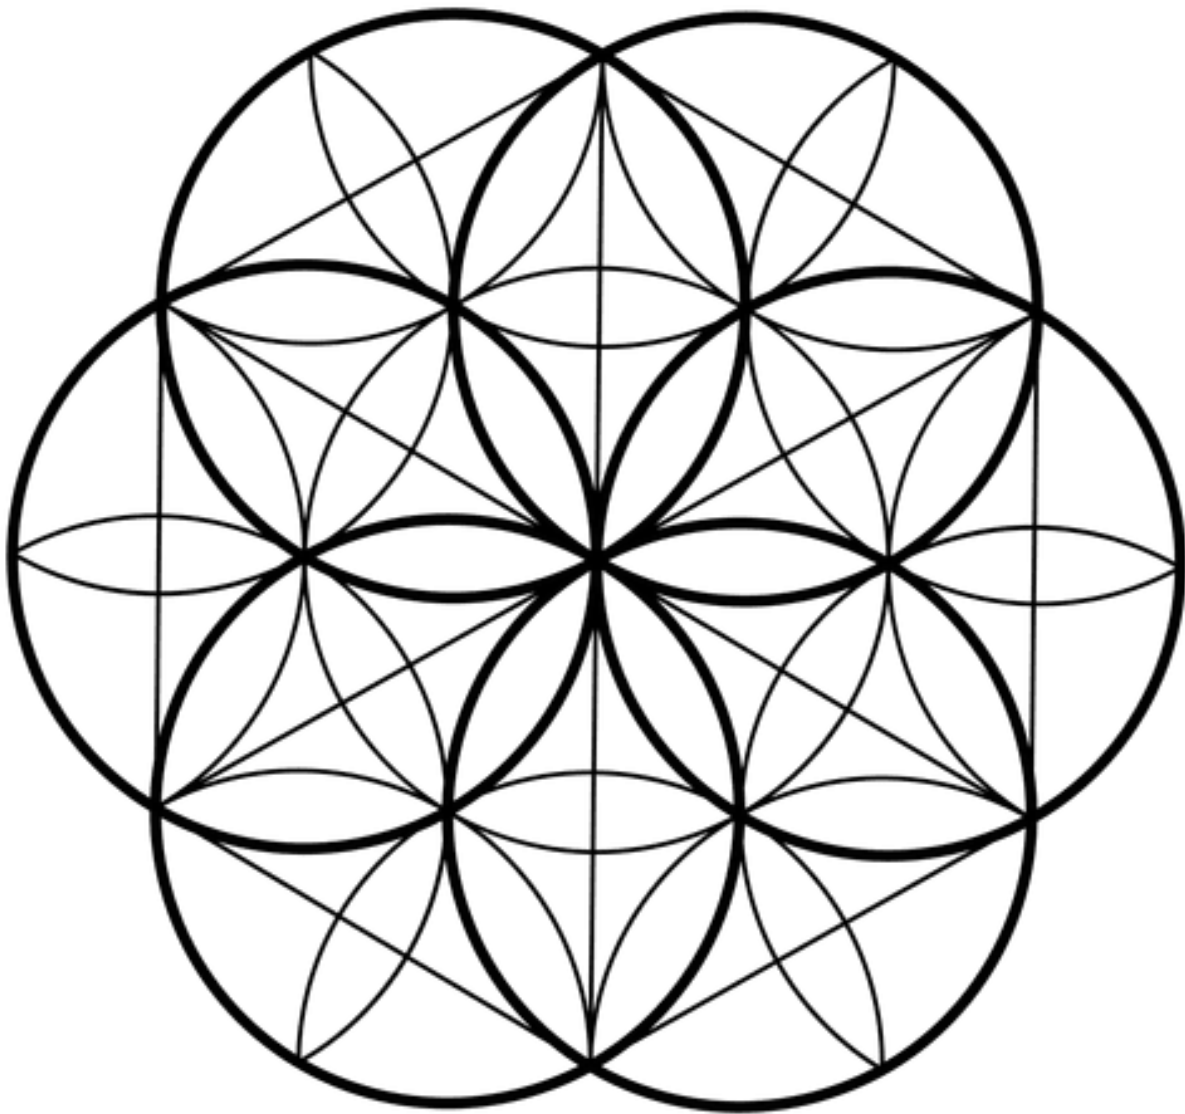

Think of things like:

- **What symbols had shapes** that were **easy** to spot?
- **What symbols** were **more challenging** to find shapes in?
- **How many** shapes are there in total for each symbol?
 - o **You don't have to do this**, but it may surprise you to find out **how many shapes CAN** go into making a symbol!
- Are **there more regular or irregular polygons** in each shape?
- **What superheroes/villains** do you associate with each symbol? **(Just something fun to think of!)**
